## *Grevillea Superb*

**Description;** A sparse but upright Grevillea with attractive flowers. *Grevillea Superb* is a hybrid between *Grevillea bipinnatifida* and a white flowered form of *Grevillea banksii*. *Superb* is very similar in appearance to *Grevillea Robyn Gordon*

*Gordon*

**Height;** 1.5-2meters.

**Span;** 1-2meters.

**Foliage;** Green 14cm wide X 15cm long.

**Flowers;** Pink/Salmon/Orange 5cms. Flowering is all year round and the nectar attracts honeyeaters and birds.

**Fruit;** After flowering.-flower heads form seed pods.

**Position;** Sunny well drained soil. Be careful with the fertilizer as with most natives, superb can be sensitive to Phosphorus. Will tolerate a light frost.
