

## *Themeda australis* "Mingo"

### **Kangaroo Grass**

**Description;** An attractive and versatile low growing grass.

**Grows to;** 15cm width 70cm.

**Foliage;** Stunning blue strap-like foliage.

**Position;** Grows well in both sunny and partly shady positions.

Thrives in most soils and is drought and frost tolerant.

**Low Maintenance;** Needs little to no maintenance.

Water well for the first 2-3 months to promote a quicker groundcover.

Trim older foliage when required and apply slow release fertiliser in spring and autumn.

**Comments;** Makes an ideal ground cover.
